

Assignment 1

Putting everything together. Lets see if we can use all of the things we learned in Web Design I to create a single page.

Create a single web page using the following tags and attributes. At least one per example.

- bold, italic, underline
- Font size
- Headings
- Font face
- Font color
- Background - color/image
- Bullet list
- Unordered list
- Image
- Link
- Table
- Page as a layout

After you have created this page, create a new site and upload material via FTP. Submit the link to your website electronically. Remember this page is NOT supposed to be extensive, this page is to help you brush up on your Web 1 skills.
